

BIOGRAPHICAL SKETCH

Provide the following information for the Senior/key personnel and other significant contributors.
Follow this format for each person. **DO NOT EXCEED FIVE PAGES.**

NAME: Rebecca Dahl

eRA COMMONS USER NAME (credential, e.g., agency login): REBECCA_DAHL

POSITION TITLE: Assistant Vice President Research Compliance

EDUCATION/TRAINING (*Begin with baccalaureate or other initial professional education, such as nursing, include postdoctoral training and residency training if applicable. Add/delete rows as necessary.*)

| INSTITUTION AND LOCATION | DEGREE (if applicable) | Completion Date MM/YYYY | FIELD OF STUDY |
|--------------------------|---------------------------|----------------------------|---------------------------|
| University of Arizona | BSN | 08/1980 | Nursing |
| University of Arizona | MSN | 08/1989 | Mental Health Nursing |
| University of Washington | PhD | 08/1993 | Mental Health of Families |

A. Personal Statement

I currently serve as the Vice President Research Compliance at Stony Brook University and my area of interest is research ethics. I have a broad background in various areas of research ethics including Responsible Conduct of Research, research misconduct, conflict of interest, including areas of federal and state laws as they pertain to animal and human research. I received certification in the area of human research (CIP) in 2003. I designed an app in collaboration with several others in the area of research ethics pertaining to children and participation in research and tested the app with a treatment and control group of children with various physical conditions. I will work diligently with the LINCATS team to improve processes and metrics for IRB and will launch the Campaign for Awareness in Ethics Research (CARE) initiative. I am committed to the mission and goals of LINCATS.

Fabulous Fifty - 1999
Key Performer Lump Sum Program - 1998
Carondelet - Excellence in Research Award – 1995

C. Contributions to Science

Publications address various topics related to research ethics. These publications discuss various topics and issues that confront the field of research with humans. A current publication that is pending includes evaluation of the app “ConsentQuest”. The use of the app with the 8-12 year olds demonstrated significant results between treatment and control groups and their understanding of the ethics associated with participation in research.
